

Evolving Systems Seeing Series (Pentagram Version) *System at Peace*

Please Note *The Pentagram is an archetype which has been adopted by various religions. In this case, however, it is presented without any religious connotations, in terms of worldly religions.*

Key principles of the Bush Mechanic/Artificer

At the beginning of the 1st evolutionary cycle or growth spiral the “Exemplar Project” is a concept which motivates “Action-Learning” which leads to collaboration (*Mutual Aid*) in the ordinary, everyday social arena (*Social Holon*) and then to effectively dealing with the constantly rising sustainability/conservation issues (*Global Problematique*) in their myriad of diverse forms. Thereafter the “Harmonisation” factor (*Eldership Practice*) paves the way for the manifestation of The “Exemplar Project.” It is only Eldership Practice that most effectively brings the “Exemplar Project” into grounded action. From thereon, the evolutionary cycling or growth spiraling continues from refinement to refinement ad infinity inspired by virtue of our Inner World simply being at peace with our Outer World.
